PRESENT.....

What Top Employers Hire

*A Career Workshop & Mock Interviews
by Rosemarie Christopher, MA*

How can **YOU** earn top dollar?
Can **YOU** “show case” your skills?
How do **YOU** become a “top performer”?

Learn the competitive truths behind the real **hiring practices of today’s World Class employers**. Rosemarie Christopher, veteran executive recruiter and president of Med Exec International (MEI), one of the nation's leading executive placement firms, reveals "far from being a mystery or a closely guarded secret, hiring the “**top performer**” is fairly straightforward" and must be understood from the rationale of the employer. This workshop is an interactive two-part roundtable session. In the first session, attendees determine what traits and characteristics they would require from a top performer in their field or position. The second simulates live interviews based on the information assessed in the first session. **Don’t miss this unique opportunity to practice your interviewing skills with Inland Empire Companies’ managers and other industry professionals at mock interview session!**

Rosemarie Christopher, our Career Workshop Presenter is a Senior Executive Search Recruiter who is a “preferred provider” identifying top performing talent for a very select group of America’s ‘World Class’ Corporations. She places Engineers, Pharmacists, Nurses, Scientists, Marketing, Sales, and Business Development professionals, in their Clinical Research, Medical Affairs, Regulatory Affairs, Quality Assurance, Sales and Medical Information departments.
