

Stand Up for Science!

The Federation of American Societies for Experimental Biology (FASEB) is sponsoring a competition for the most effective demonstration of how research funded by NIH, NSF, and other federal agencies improves the health, quality of life, or economy in local communities.

We are looking for YOU to create exhibits, events, or web-based outreach that highlight the value of NIH, NSF, or other federally funded research!

Ideas for submission include but are not limited to:

- Rallies
- Exhibits
- Demonstrations
- Science fairs
- Flash mobs
- Music/dance videos
- Interpretive dance
- Theatrical presenta-

Use your imagination and be creative!

Prizes

Grand Prize: \$10,000

Runner Up: \$5,000

Honorable Mention: 5 at \$2,000

Events or exhibits must be held or started before November 10, 2012
Final submissions must be received by December 1, 2012 at 11:59pm EST
Winners will be announced January 15, 2013!

For more information and to enter, visit www.faseb.org/contest

The National Institutes of Health (NIH) and the National Science Foundation (NSF) support research in all 50 states, the District of Columbia, and U.S. territories. NIH funds research into the nature and behavior of living systems and the application of that knowledge to enhance health. NSF supports research in all fields of science and engineering, from agriculture and the environment to microchips and nanotechnology.
