

**Postdoctoral Position in Epigenetics and Cellular Plasticity with a Focus on:**  
***Chromatin Assembly and Non-Coding RNAs***

The position is available immediately in the laboratory of Dr. Sihem Cheloufi in the Department of Biochemistry and Stem Cell Center at the University of California, Riverside. A successful applicant will have a strong background in molecular biology, biochemistry and cell biology. Prior experience in RNA, chromatin and computational biology is desirable. For more background info visit the [cheloufilab.org](http://cheloufilab.org)

Interested applicants should send their CV and contact information of three referees to [cheloufi@ucr.edu](mailto:cheloufi@ucr.edu)
