

Spring 2021 Applications Open

Learn what it takes to become an innovator!

Is there a market for your idea or research?

Discover if your idea or technology has commercial value in this hands-on program.

Dedicated Mentorship: Receive 1:1 mentoring from experienced entrepreneurs who will guide you through the Lean Launchpad methodology to see if your idea has market potential.

Transferable Business skills: Sharpen presentation skills, learn basic business concepts and how to effectively present your idea or technology to non-technical audiences.

Expanded Network: Connect with fellow innovators, industry experts, and potential customers, partners, investors, and stakeholders to validate your idea or technology through interviews.

Access to Funding: Receive up to \$3,000 to interview customers. Upon completion, qualify for \$50,000 in additional funding from the NSF and secure special preference for Proof of Concept grant funding of up to \$35,000 through the Office of Technology Partnerships.

**Apply by April 2, 2021 for the
Spring program:** bit.ly/UCR_ICORPS

Information Session on March 31 at 12pm:
