

Enrollment Form
BMSC 297 Directed Research or BMSC 299 Research for Dissertation

This form should be used to confirm matched expectations between the enrolled student and faculty for the number of registered units agreed upon and receipt of the syllabus for BMSC 297 directed research or BMSC299 dissertation research.

For every unit of enrolled credit, generally three hours of activity inclusive of in person lab work as well as experimental design and analysis is required. Specific expectations for activities required, grading and absentee policy should be outlined in the syllabus from faculty. For example, enrollment in 4-units of BMSC 297/299 would require 12 hours/week commitment for the quarter.

These courses are graded Satisfactory (S) or No Credit (NC). Receipt of NC does not affect the GPA of a student, as it merely reflects no course credit received. The method of evaluation for the course will be listed in the syllabus and should be discussed no later than the first week of the quarter enrolled.

Name _____ SID _____
E-Mail _____ Quarter _____
Academic Program _____ Year _____
Degree Objective _____ Requested enrolled units _____

If, Master's Degree Program Plan, please select one:

<input type="checkbox"/> Thesis	<input type="checkbox"/> BMSC 297 Directed Research
<input type="checkbox"/> Comprehensive Exam	<input type="checkbox"/> BMSC 299 Research for Dissertation/Thesis
