

Calling For Participants

✦ The Pursuit of STEM: How Entrance is Gained and How Persistence is Maintained ✦

IRB#1905649-1

Eligibility

- + + • 18 years or older
- + + • In a Science, Technology, Engineering, or Mathematics graduate program
- + + • Part of an underrepresented group in the STEM field such as a racial/ethnic minority and/or female

About This Study

The purpose of this study is to learn more about how underrepresented minorities who are pursuing a graduate degree gained entrance into STEM as well as to gain more information about the strategies used to persist not only during undergraduate studies but into graduate studies.

Participation Involves...

- A one-on-one interview via Zoom that may range from 45 minutes to an hour long where you will be asked about your journey within STEM such as how you became interested in the field, the academic preparation that you believe contributed to your entrance into STEM, etc.

For more information, questions or concerns contact Yolanda Arciniega at yolanda.arciniega@bsu.edu or Dr. Mellisa Holtzman at mkholtzman@bsu.edu

This study was approved by the Ball State University IRB (IRB#1905649-1)
