

PROSPECTOR IS COMING TO UC RIVERSIDE!

ACCESS THE MICROBIOME AT UNPRECEDENTED SCALE

Following Dr. Christey's presentation, UCR faculty will be encouraged to submit proposals utilizing the Prospector system. Winners will be awarded first access to the Prospector system!

Prospector® allows you to rapidly generate microbial libraries for discovery experiments and enables easy isolation of target organisms for causation and consortia studies. While at the same time experiencing an exponential increase in scale and throughput.

"Advance your research with Prospector"

Attend this exciting presentation to learn how "Prospector" can advance and accelerate your research, leading to more successful proposals and funding!

MONDAY DECEMBER 7

10 AM - 11 AM
