

Nov. 16-20, 2020

3:00 - 5:00 pm

1 CEU for each session

APLD & LASAN present

LOS ANGELES BIODIVERSITY SYMPOSIUM

Biodiversity is Critical to the Future of Our Planet: Learn and Understand What's at Stake

Biodiversity hotspots are home to unique flora and fauna, most of which are endemic to a particular environment. Our City of Los Angeles is fortunate to be one of only 36 Biodiversity Hotspots on the Planet. This designation also means that biodiversity here is threatened, and we need to come up with protective strategies to safeguard our region's resilience and sustainability.

Learn the facts, solutions and tools that can help protect and improve environmental conditions in Los Angeles from key scientists, horticulturalists and urban planners at our week-long symposium. They will illustrate the vital importance of an integrated ecosystem of natural biodiversity and sustainable urban landscapes.

Featuring:

- Councilman Paul Koretz • Dr. Mas Dojiri
- Michelle Barton • Isaac Brown, D.Env.
- Lila Higgins • Eric Wood
- Kat Superfisky • Carol Bornstein
- Natale A. Zappia, Ph.D. & Don Larson
- Drs. Brad Shaffer, Joscha Beninde & Erin Tofflemier • Eric Strauss

Earn up to 10 CEUs

5 Day Virtual Biodiversity Conference

November 16-20, 2020 3:00 - 5:00 pm
