

# VACCINATION AND RAPID HIV TESTING

We are interested in talking to men who have sex with men about bundling HPV and meningitis vaccination with TruEvolution's rapid HIV testing services.

You may be eligible for the study if you:

- ✓ Identify as a man who has sex with men
- ✓ Are 18 or older
- ✓ Live in Riverside County or San Bernardino County
- ✓ Can speak and understand either English or Spanish
- ✓ Have internet access and a computer, tablet, or smartphone that you can use to video chat

The study will involve filling out a short survey and participating in a 90-minute video-recorded group discussion online.

Questions? Contact Dr. Andrea Polonijo
