

Hurry, there's still time!

DATA SCIENCE CHALLENGE

August 30 – September 17, 2021

**Don't miss this unique opportunity!
The experience will be unlike any other.**

This intensive virtual training program provides challenging exercises and assignments, virtual tours, and seminars. For 3 weeks, you'll work on an important data science problem while learning from experts, networking with peers, and developing skills for future internships. You'll also get a taste of day-to-day life at Lawrence Livermore National Lab, where we have a passion for national service.

IF YOU THINK YOU HAVE WHAT IT TAKES...

Apply Now

Stipend will be provided

Solve an exciting
problem in astronomy
for planetary defense
