

# CNS | SUMMER INTERNSHIPS

## Summer Internships available

- Opportunities in Engineering (Chemical, Civil, Computer, Electrical, Fire Protection, Mechanical, Nuclear, and other Engineering Disciplines) and Science (Chemistry, Computer Science, Mathematics, Physics, and other Science Disciplines) as well as Information Solutions and Services (Computer Science and Informational Technology) are available.
- U.S. citizenship required.
- 10-12 weeks at the Pantex Plant (Amarillo, TX) or Y-12 National Security Complex (Oak Ridge, TN).
- Students will work in a team environment on meaningful projects relevant to their field of study.
- Students are paired with a technical staff member and a mentor.
- Students engage in professional development workshops and social activities.
- Eligible participants must be of junior, senior, or graduate status.

"I wanted to come to Y-12 because I've been fascinated with the Manhattan Project ever since I was old enough to understand what it was and what it stood for. So, there's no other place I would rather spend my summer interning...The thing that surprised me the most about Y-12 was the friendliness of the employees and their openness to help you with anything and everything" – **Y-12 intern**

"I would highly recommend accepting an internship with Pantex for the true engineering work experience gained and the great culture of many young engineers." – **Pantex intern**

## Apply online here:

### Pantex Plant (Amarillo, TX)

Go to <https://pantex.energy.gov/careers/university-recruitment> and click on "Search Openings" to apply.

### Y-12 National Security Complex (Oak Ridge, TN)

Go to <https://www.y12.doe.gov/careers/university-recruitment> and click on "Search Openings" to apply.
