

# Digital Agricultural Fellowship

**APPLICATIONS DUE  
APRIL 16, 2024**

A key part of this project is the Digital Agriculture Fellowship, which is a paid 15-month research fellowship, intended for undergraduate students to gain hands-on experience in agriculture and research. AI4SA encourages eligible undergraduate students to apply using the form included below. A major purpose of the Fellowship Program is to revitalize interest in pursuing agriculture as a career, by providing students with the experience and guidance necessary for entering the U.S. agricultural workforce. Throughout the Fellowship Program, students will be given networking opportunities, hands-on research experience, and mentorship from the scientists of the AI4SA project.

## **BENEFITS**

- Fellowship valued up to \$20,000
- 15-month research experience
- 1 on 1 Faculty Mentorship
- Conference Travel Funds
- Professional Development

**Application**      **Highlander Link**
