

Biohazard Waste Reminders

- 1) New bins are for closed bags, avoid accumulating open bag biowaste in rectangle containers. Containers lids must remain closed when not in use.
- 2) Waste must be **DOUBLE BAGGED**. The primary bag should be closed and placed into a second red biohazard bag.
- 3) Both primary and secondary bag must be **CLOSED** (preferably with zip ties). Bags must meet ASTM D1709 and ASTM D1922 standards.
- 4) The second bag should be labeled with the **date** of generation, **PIs name** and **lab's room number** (i.e. B360A).
- 5) Only **RED** biohazard bags are accepted
- 6) **NO LIQUIDS** allowed inside bags
 - a. Consult EH&S for liquid biohazard waste questions or concerns.
