

# WANTED

## Houses for subterranean termite study

Have you seen  
swarming termites  
or mud tubes?

**UC RIVERSIDE**

Western subterranean termite  
(*Reticulitermes Hesperus*)

UC Statewide IPM Program  
© 2009 Regents, University of California

Yernard Lewis, UC Berkeley  
Used by permission

Researchers at the University of California Riverside are testing termite baits to control subterranean termite infestations.

**There is no cost to participate in the program.** Please contact us for a **free inspection** to determine if your home is a candidate for the trial.
