Postdoctoral researcher opportunities available in the Diepenbrock Integrated Pest Management lab at the University of Florida Citrus Research and Education Center in Lake Alfred, Florida and in the Quinn lab at the University of Florida Indian River Research and Education Center in Fort Pierce, Florida. Both positions will focus on management aspects of a recently established pest species of snail (*Bulimulus bonariensis*).

In the Diepenbrock lab, the postdoc will document seasonal population biology and plant damage, evaluate control options including molluscicidal baits and exclusion from trees with various forms of copper.

In the Quinn lab, the postdoc will focus on evaluating potential biological controls for *B. bonariensis*.

Applicants will start no later than the fall of 2023. **Due constraints of the funding agency timeline, only domestic applicants or foreign applicants who will be in possession of an OPT card or appropriate Visa prior to September 1st 2023 will be considered.** Salary is \$50,000 and includes benefits.

Applications are due by April 15, 2023.

Please contact the appropriate PI for the possession you are interested in applying for:

Lauren M. Diepenbrock
Assistant Professor of Entomology and Citrus Entomology Extension Specialist
