

Join the Society for In Vitro Biology (SIVB)

Advance your career in plant and animal biotechnology through premier scientific collaboration

Help Us Grow!

SIVB is actively expanding its membership and strengthening its scientific community. We invite representatives from universities, research institutions, and biotechnology organizations to collaborate in promoting membership opportunities to qualified colleagues and students.

Why Become a Member?

- **Access Premium Resources**
Enjoy unlimited access to our leading *In Vitro Cellular & Developmental Biology*, peer-reviewed journal, member newsletter, and a rich library of on-demand scientific talks.
- **Stay at the Forefront of Innovation**
Dive into expert-curated content on cutting-edge topics such as gene editing, synthetic biology, crop improvement, future foods, cryopreservation, and more.
- **Present Your Research**
Showcase your research at our annual meeting featuring internationally recognized speakers, specialized symposia, and peer-reviewed poster sessions.
- **Grow Your Network**
Connect with scientists from academia, government, and industry, addressing critical challenges in biology, genomics, and biotechnology.
- **Leadership & Recognition**
Shape the strategic direction through committee participation, which also leads to recognition within and outside of the Society.

What Members Are Saying

"A training award from SIVB (Philip White award for training in plant tissue culture) in 2003 was all it took to ignite my interest to pursue a career in in vitro biology. This award led to my first trip outside of my home country. I later joined the SIVB as a graduate student in 2005. I met so many students and professionals through SIVB who contributed to my career advancement. I am very thankful to SIVB and wish to see the society grow and touch more lives."

- **Esther E. Uchendu, PhD**

"New to the community, but the networking side is what interests me most. I also enjoy supporting others in their endeavors."

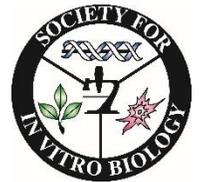

- **Jeffrey F. Monette**

"SIVB was my first insight into the scientific community. It's become the cornerstone of my professional development."

- **Jasmyn Hoeger**

Membership Types and Special Offer

SIVB offers 4 different membership opportunities to those interested in joining the organization:

- **Regular:** Open to professionals and researchers committed to advancing the Society's mission.
- **Life:** Available to Regular Members upon payment in advance of dues equivalent to 10 years of Regular Membership.
- **Post Doc:** Designated for current post-doctoral researchers in relevant disciplines and interested in the mission of the Society.
- **Student:** Available to full-time undergraduate and graduate students enrolled in accredited degree programs and passionate about championing the Society's purpose.

Get 25% off your 2026 SIVB membership if you're not currently a regular or post doc member.*

Offer expires June 1st, 2026 — act fast!

Join Today!

Visit [The Society for In Vitro Biology \(SIVB\)](https://www.sivb.org) to learn more and start your membership.

Society for In Vitro Biology * 672 Old Mill Rd., Suite 284* Millersville, MD 21108 * USA
Phone: (410) 969-7940 * Fax: (410) 969-7941 * Email: sivb@sivb.org

*Offer applies to those who have never been a member of SIVB or previous SIVB members whose membership lapsed prior to December 2023.
