

Beeflow

Job Opportunities

Beeflow applies scientific knowledge and technologies to **bee pollination**. By providing professional pollination services to farmers, we increase crop yields by 20-90% in Blueberries, Almonds, Raspberries, and Kiwifruit all while reducing bee population decline. We are based in **Ventura County, California** and **Buenos Aires, Argentina** but work throughout multiple regions in the US and Latin America. Learn more at beeflow.com
