## Title:

"Insect Photography in the Field and the Studio"

## Abstract:

Science communication has become more important than ever before and visual media is one of the most effective ways to connect with your audience. In this seminar we will cover the basics of macro photography and how to put together an effective kit and skillset to capture images and video in the field and the lab for publications, presentations, and classroom content as well as highlighting specialized techniques and equipment for capturing insect behavior.

Refreshments will be served in the Entomology Building Courtyard at 3:30pm
