

# SCICOMM@UCR PRESENTS... UNDERGRADUATE MENTORSHIP PROGRAM FOR THIS ACADEMIC SCHOOL YEAR 2024/2025

Starting in the fall we will have a year long (October 2024 - June 2025) science communication mentorship program between graduate students and undergraduate students. The whole experience is supposed to be fairly informal and ultimately aimed at giving the undergraduates exposure to the world of science communication. Below are some optional expectations for you as a mentor, however, it is up to you and your mentee to set expectations that work with your schedules and goals.

- (1) Help them create a final project such as a popular science piece (or another medium)
- (2) Potentially help them publish the piece (with you as coauthor)
- (3) Take the undergrads to SciComm related events throughout the year
- (4) Meet with them once or twice a month

Please fill out this form if you are interested in being a mentor by October 20th. Once we get graduate student responses we will reach out to undergrads to find an ideal pair. Feel free to share this with anyone else you think may be interested.

If you have any questions email me at [jmac003@ucr.edu](mailto:jmac003@ucr.edu)
