

RIVERSIDE

DEPARTMENT OF ENTOMOLOGY
Entomology Seminar Series

Speaker:

Hannah K. Levenson, PhD
North Carolina State University
Entomology (Behavior, Ecology, Evolution & Systematics)
Biology (Ecology & Evolution)

Date: Monday October 28, 2024

Time: 4:00 pm - 4:50 pm

Format: In-Person Seminar & Virtual Access

Location: Genomics Auditorium 1102A

Zoom: 952 1906 3064

Passcode: 505445

Title:

"Applied Insect Ecology in a Diverse Agroecosystem: From Row Crops to Specialty Crops"

Abstract:

Hannah is an integrative community ecologist interested in investigating how humans impact the environment and exploring ways to mitigate those impacts. To do this, she researches pest and beneficial insect communities (including pollinators and natural enemies) in human modified environments. Hannah will discuss how Integrated Pest and Pollinator Management concepts can be applied to a variety of systems for improving pest control and protecting beneficial organisms.

Refreshments will be served in the Entomology Building at 3:30 pm
