

Attending the Entomological Society of America
meeting and interested in insect traits?
Please join our workshop!

Standardizing the collection of insect trait data to identify ecological functions

Entomological Society of America 2025 Meeting
Portland OR, USA

Sunday November 9, 2025, 2:00 PM - 5:00 PM
A106, OCC, Oregon Convention Center

This workshop, led by the RCN Status of Insect Trait Working group, seeks to establish a distributed network of standardized data collection to allow for tests of insect trait variation and address many ecological questions. Ongoing participants will be invited to co-author a white paper and eventual data paper. Early career researchers are especially encouraged to attend!

Workshop facilitators:

Kayla Perry, Nathan Baker, Deshae Dillard, Eliza Grames, Jessica Kansman, Elinor Lichtenberg, Karl Roeder, Vaughn Shirey, Ellen Welti
