

Lecturer / Senior Lecturer in Forensic Entomology/ Plant Biotechnology / Molecular Breeding

University of Kentucky

The Department of Entomology / Plant and Soil Sciences at the University of Kentucky invites applications for a Lecturer or Senior Lecturer position supporting Agriculture and Medical Biotechnology (AMBT) undergraduate program. AMBT is an interdepartmental undergraduate program supported by the Martin-Gatton College of Agriculture, Food and Environment (M-G CAFE), with instructional contributions from Plant and Soil Sciences, Plant Pathology, Entomology, Horticulture, and Veterinary Science. The program emphasizes hands-on, independent research, individualized coursework, and extensive mentoring. This is a full-time, non-tenure-track faculty position with a primary focus on undergraduate instruction.

The successful candidate will contribute to high-quality teaching and student mentoring in AMBT and in their area of expertise, including Forensic Entomology, Plant Biotechnology, and Molecular Breeding, and will support academic programs in agriculture and life sciences. Applicants should hold a doctoral degree in a relevant discipline by the start date and demonstrate a strong commitment to excellence in teaching.

The University of Kentucky is a land grant institution with a collaborative academic environment and strong programs in agriculture, food, and environmental sciences.

Application deadline: May 21, 2026
