Imagery Day

Join us at Planet Imagery Day to learn all about Planet's high-resolution and high-frequency satellite imagery. UCR personnel will provide study cases on their ongoing research, with an emphasis on mapping agricultural and environmental systems with Planet imagery.

UCR students, faculty, and staff will learn introductory and advanced lessons on storage and processing from Planet staff directly. Lunch and refreshments will be provided.

Register for this event on Eventbrite:
[PlanetImageryDay2024.eventbrite.com](https://www.eventbrite.com/e/planet-imagery-day-2024-tickets-758484888888).
Email ai4sa@ucr.edu with any questions.

**Tuesday,
January 23rd**

9AM-3PM

 **Orbach 122**
