CITATION MANAGEMENT

WINTER QUARTER
2022

Managing Your Archival Research Materials

THURSDAY, JANUARY 13 • 2:00 - 3:30 PM • WEEK 2

Zotero is a free, easy-to-use tool that assists in gathering, organizing, and integrating sources into research papers. Building on previous UCR Library workshops that introduced the key functions of Zotero, this workshop will dive into more advanced topics related to retrieving PDF metadata, advanced searching, syncing Zotero libraries across multiple devices, file management using external and cloud storage, and more.

While we will primarily cover advanced Zotero topics, anyone is welcome to participate in this workshop regardless of prior experience with Zotero.
