SUMMER 2022 WORKSHOPS

INTRODUCTION TO LATEX
Tuesday, Jul 26 | 12pm - 1:50pm

Join us to learn the basics of LaTeX, a document preparation system which gives users nearly unlimited control over aesthetics and formatting. Beginner users are welcome.

HANDLING MISSING DATA
Wednesday, Aug 17 | 2pm - 3:50pm

Join us to learn the fundamentals of data analysis in the presence of missing values. Participants will explore a variety of classical techniques, with applications in R

MACHINE LEARNING FOR BEGINNERS
Wednesday, Sep 7 | 2pm - 3:50pm

Join us for a gentle introduction to machine learning. Participants will explore the theory and mechanics of a few popular algorithms, with applications in Python and R.

ALL WORKSHOPS WILL BE HELD ONLINE ON ZOOM.
