

## CITY OF RIVERSIDE GENERAL PLAN UPDATE & CLIMATE ACTION AND ADAPTATION PLAN

The City of Riverside is continuing its **General Plan Update (GPU)** to guide how the city grows, develops, and thrives through 2050, reflecting the community's shared vision and priorities every step of the way.

The City is also advancing the **Climate Action and Adaptation Plan (CAAP)** focused on reducing greenhouse gas emissions while strengthening resilience against climate change.

Together, these efforts will shape a more sustainable, connected, and vibrant future for Riverside.

At the last workshop, the community shared ideas and feedback on early land use concepts. Now, we've transformed that input into three refined land use alternatives.

At this workshop, you will:

- Explore three distinct land use options shaped by community input.
- Share your thoughts on what you like, what could be better, and what's missing.
- This is your opportunity to directly influence how Riverside grows.

**Saturday, May 2nd, 2026**  
**11:00 AM**

**Riverside Salvation Army Corps**  
3695 1st St, Riverside, CA 92501

*Spanish and ASL interpretation will be available.*
