UNIX

```bash
#!/bin/bash

NAME="Brandon"

# IF-ELSE
if [ "${NAME}" == "Bob" ]
then
    echo "Hi Bob, nice to meet you!"
else
    echo "You're not Bob, your name is ${NAME}"
fi
```

WORKSHOP: SHELL SCRIPTING

Genomics Auditorium 1102A
1pm - 3pm

This workshop will provide an introduction to the shell scripting. This workshop is intended for users with some familiarity to the command line interface. Topics covered include:

(1) Understanding the basic structure of a shell script
(2) Creating variables
(3) Creating IF-ELSE statements
(4) Creating FOR LOOP statements
(5) Passing arguments into a script
