

## **BCH 251/252 Seminar Series**

**Leonard Mueller, Professor of  
Chemistry, Department of Chemistry,  
UC Riverside**

**Seminar Title: “NMR Crystallography:  
An Atomic-Resolution Probe of  
Enzyme Structure and Mechanism”**

**Biography:** Len Mueller is Professor of Chemistry at the University of California, Riverside. His research is centered on integrative approaches that combine solid-state NMR with diffraction and computation to probe molecular and biomolecular structure and function. Applications from his lab span from materials science and photomechanical materials to structural biology and enzyme active sites.

**Tuesday, May 6, 2025 12:00 p.m. - 12:50 p.m. PST**

**In-Person: Genomics Auditorium 1102A**

**Host: Dr. Gregor Blaha**
