Title:
“Exploring the genomic landscape in eukaryotes”

Wednesday, December 1, 2021
12:00 pm PST

Zoom Meeting ID: 910 6156 2427
Passcode: 639569

Abstract: From tiny animal mitochondrial genomes to gigantic dinoflagellates nuclear genomes, I will try to present my journey into the genomic world as it happens in parallel with development of high-throughput sequencing technologies.
