

# eXceed Event: Bruker Seminar

## Bruker Life Sciences Mass Spectrometry

### Agenda

**Lunch and Learn at the University of California – Riverside**  
**Tuesday, June 13, 2023**  
**2:30 pm – 4:30 pm Pacific Time**  
**Genomics Building Auditorium**

<b>2:30 pm</b>	<b>Introduction &amp; Opening Remarks – Leslie Sandoval</b>
<b>2:35 pm</b>	<b>Driving Research with 4D-Omics utilizing timsTOF technology</b> Erica Forsberg, Ph.D., Bruker Daltonics
<b>3:15- 3:25 pm</b>	Coffee Break
<b>3:25 pm</b>	<b>timsTOF fleX: The Power of MALDI Imaging in Disease Based Research</b> Connor West, Ph.D., Business Development Manager – Imaging, Bruker
<b>4:15 pm</b>	<b>Question and Answer Session</b>
<b>4:30 pm</b>	<b>Closing Remarks &amp; Conclusion</b>

**We would be pleased for you to attend!**

## Guest Speakers

Dr. Forsberg is responsible for developing and improving existing metabolomics and lipidomics workflows. Her expertise includes untargeted metabolomics, ion mobility, and bioinformatics solutions for in depth data analysis.

Connor received his PhD from the Medical University of South Carolina in 2020 in the laboratory of Richard Drake and Anand Mehta, focusing primarily on liver cancer biomarkers via imaging mass spectrometry of N-linked glycans, which remains his primary research interest and focus. Since joining Bruker in early 2022, Connor served as a field applications scientist, traveling across the country to train other lab groups on how to use Bruker imaging mass spectrometry solutions for their research needs before moving into his current role of the Business Development Manager for Imaging.
