UE Survey

Do you currently serve in a student facing capacity?

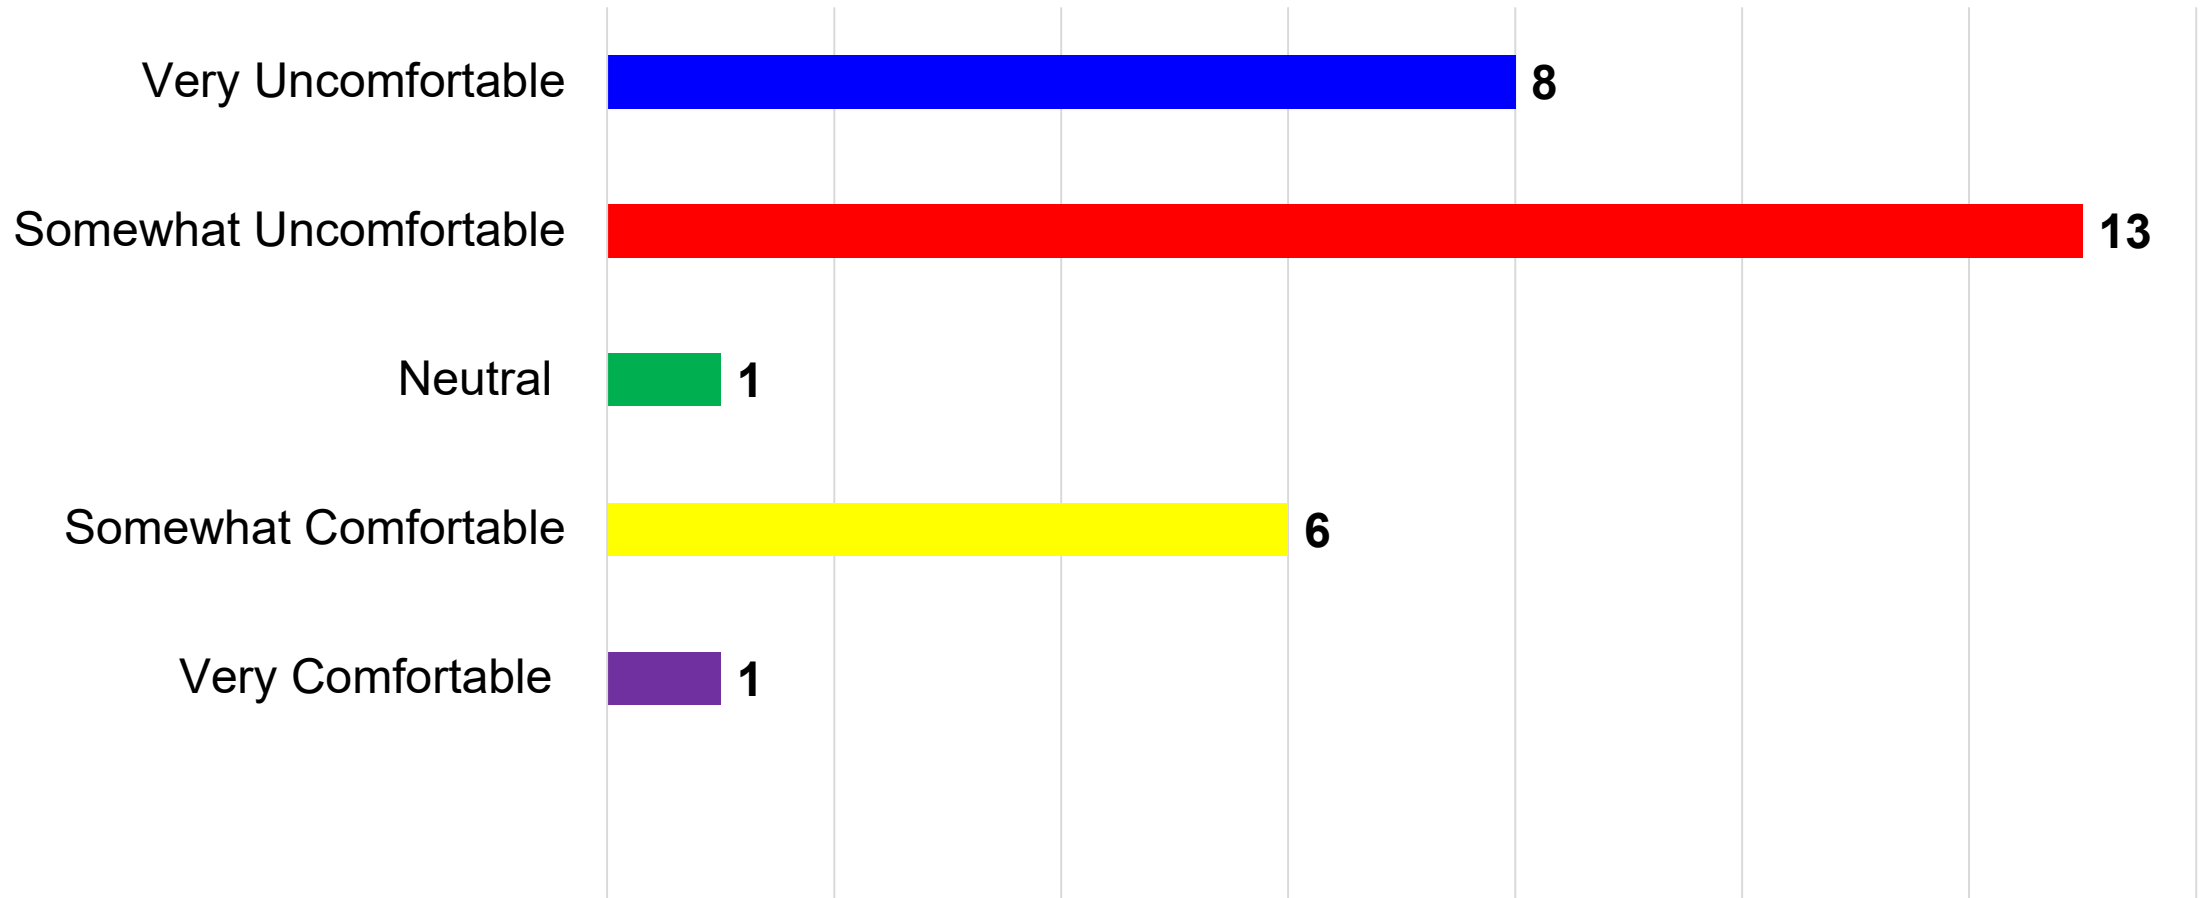

■ Not student facing

■ Student facing

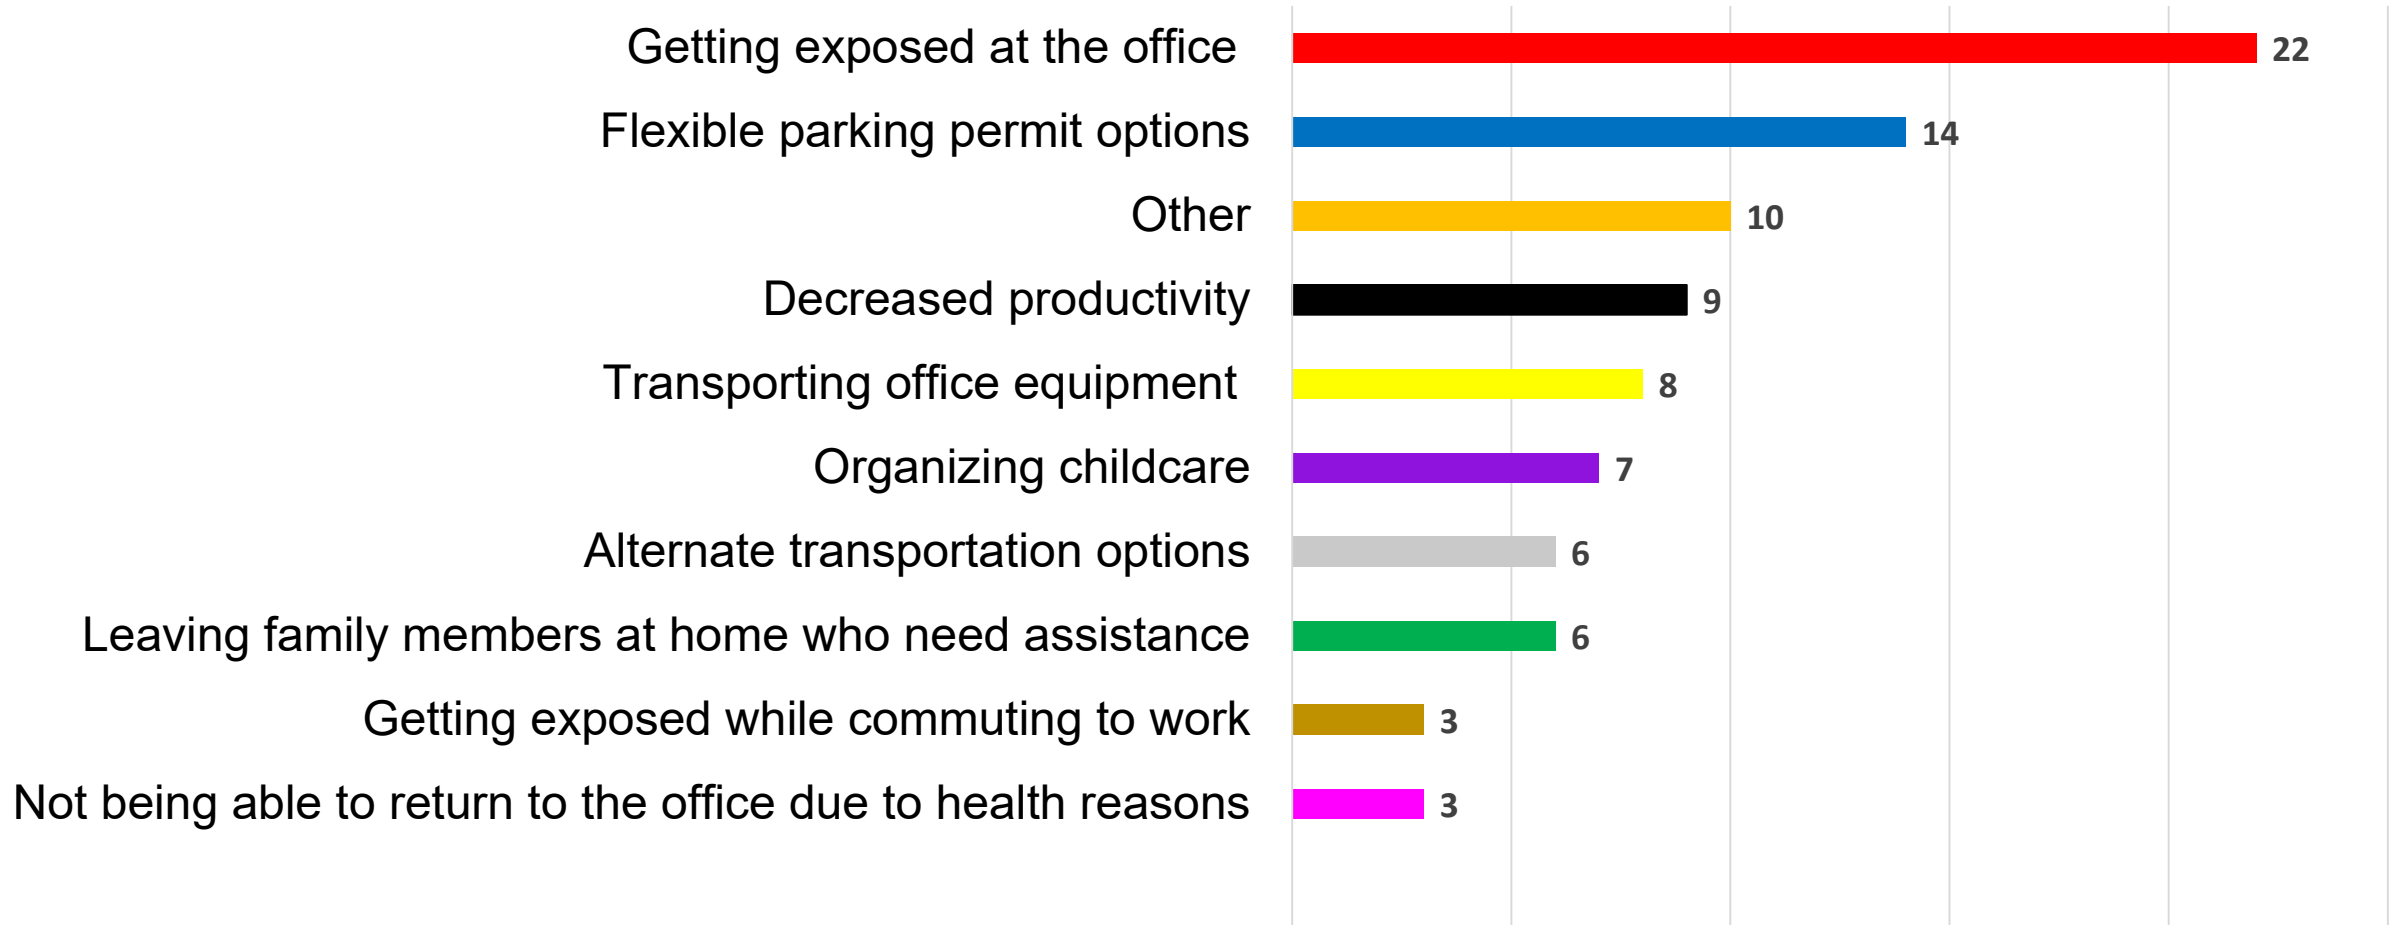

How comfortable are you returning to campus on September 1st, 2021?

N=28

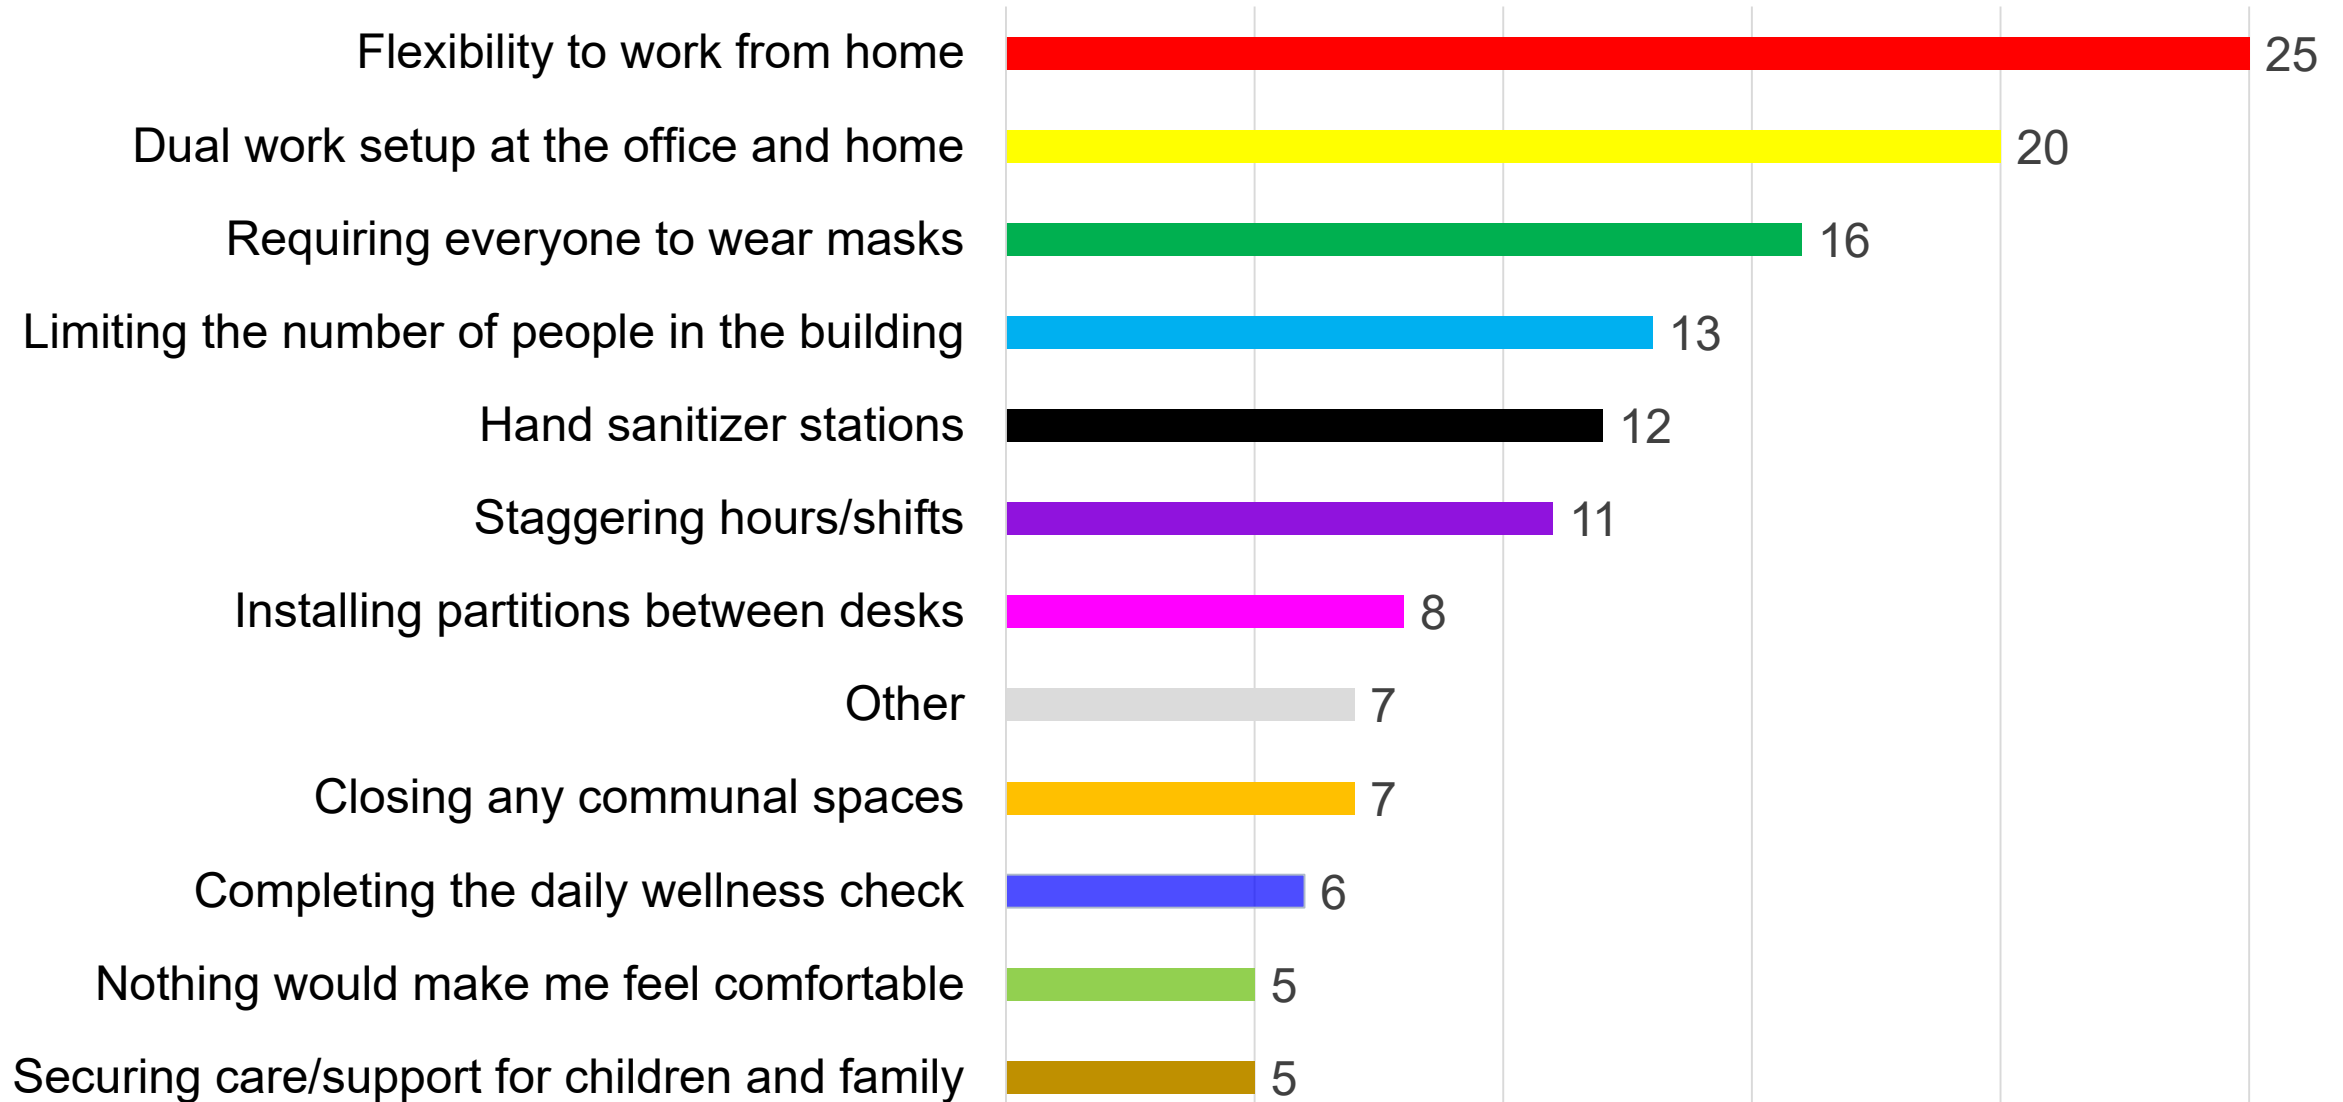

Which of the following are concerns you have about returning to work in the office?

Other concerns about returning to work in the office:

- Sharing an office space
- Indoor mask mandate
- Lack of executive communication about COVID mitigation efforts

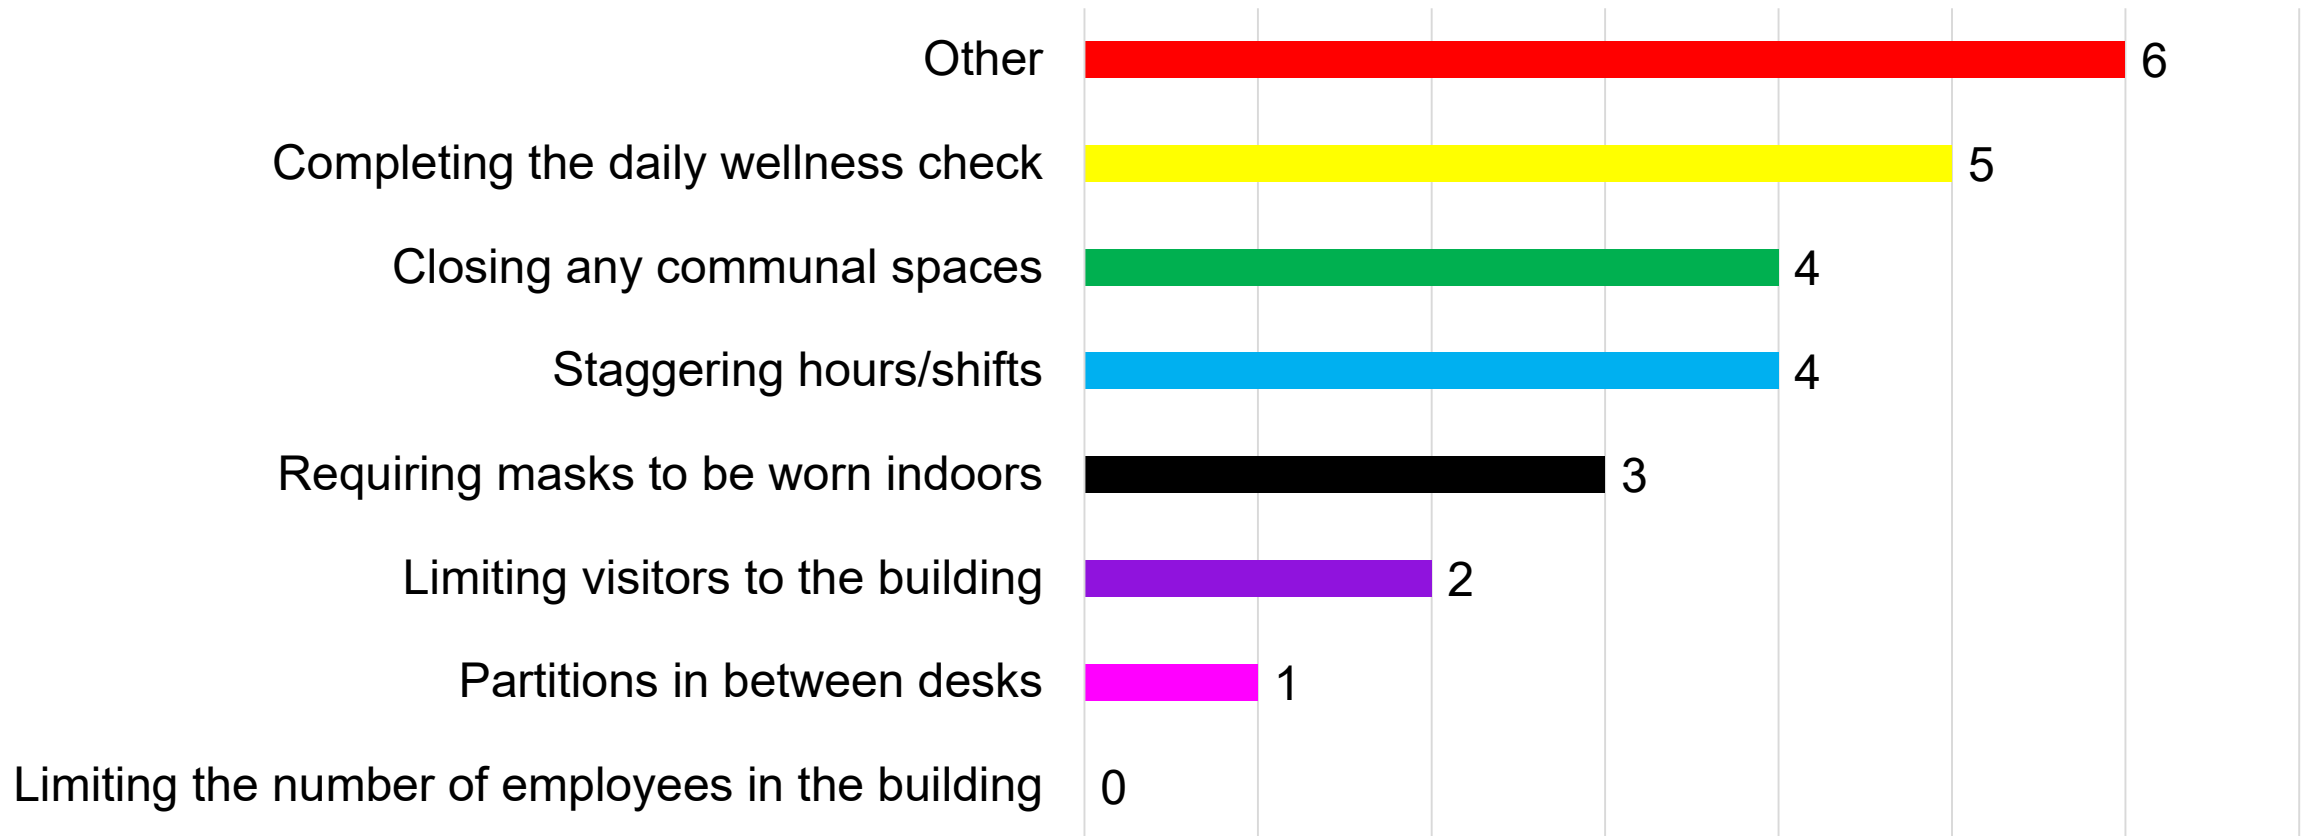

Which of the following would make you feel more comfortable returning to work?

➤ What would make you feel more comfortable returning to work?

<ul style="list-style-type: none">• Requiring everyone to wear masks	<ul style="list-style-type: none">• Daily Wellness Check
<ul style="list-style-type: none">• Nothing would make me feel more comfortable returning to the office	<ul style="list-style-type: none">• Frequent cleaning (wiping down doorknobs, etc)
<ul style="list-style-type: none">• Staggering hour/shifts	<ul style="list-style-type: none">• Installing partitions in between desks
<ul style="list-style-type: none">• Limiting the number of individuals in the building	<ul style="list-style-type: none">• Air purifiers- no confidence in HVAC
<ul style="list-style-type: none">• Closing communal spaces	<ul style="list-style-type: none">• Secured care/support for children or other family members
<ul style="list-style-type: none">• Having secured care/support for children or other family members	<ul style="list-style-type: none">• Low density

Which of the following you prefer not to be implemented when returning to work in the office?

Other things you would prefer not to be implemented:

- Wearing masks indoors when fully vaccinated
- Unvaccinated people should not be allowed on campus
- More safety precautions need to be implemented
- Proposed plans for masks, partitions, closing spaces, or limiting access just reinforces staff concerns about the safety of returning
- Daily Wellness Check is not effective. Seems like a legal effort to prevent liability. Offers no protection.

What should be considered regarding COVID variants?

- Rising infection rates in Riverside and San Bernardino Counties
- Continued flexibility from the campus, orgs, and departments
- Parents are at risk of being exposed and passing it on to their children who are unable to get vaccinated
- The vaccine does not protect us against new variants
- Long term effects are unknown
- High touch areas are continuously sanitized
- Staff access to disinfectant sprays and hand sanitizers
- Air ducts are working properly and filtering the air

What other factors should UE consider?

- Importance of leadership
- Self-test kits for staff
- Enforcing social distancing
- Common Area Use (Microwave Use, Sink, Refrigerator Cleaning)
- Various Levels of Risks

Consistent Monitoring

UCR Vaccination Mandate

- 74% employees and 64% of students have complied with vaccine mandate
- Students will get a series of notices including a progressive discipline process
 - Every week they will get a reminder
 - Communicating to non-compliant students – text and email
 - ABC of vaccine compliance
 - Possible holds start August 30th
- Employees will get notices and ultimately progressive discipline
