

Department/Unit Reporting Questionnaire & Certification

The University of California [Native American Cultural Affiliation and Repatriation Interim Policy](#) requires that all UC campuses conduct a systematic campus review to locate any previously unreported Native American¹ Human Remains or Native American ethnographic or archaeological objects or collections (“Native American Objects”) (see Section V.E.2). Please answer the following questions. If you are unable or unsure how to respond, please direct your questions to Megan Murphy at megan.murphy@ucr.edu.

Notification of department/unit faculty, staff, and students

In accordance with the UC Native American Cultural Affiliation and Repatriation Interim Policy, I have notified departmental/unit faculty, staff, and students of our responsibility to report any previously unreported potentially NAGPRA/CalNAGPRA-eligible Human Remains or Native American Objects that:

- 1) Are under UC’s Control (including any remains or cultural items UC may have loaned to other institutions or individuals), or
- 2) Are on loan to the UC or any of our faculty, staff, and students.

- ☐ Yes

Provide date/planned date of notification: _____

Method of communication: (open answer)

Identification of potentially NAGPRA Eligible Items

1. Are there any human remains or ethnographic or archaeological objects held by faculty, staff, or students in department/unit offices or laboratories that may be Native American?
 - ☐ Yes ☐ No ☐ Possibly/Uncertain
2. Are there any human remains or ethnographic or archaeological objects from your department/unit on loan to another institution or individual that may be Native American?
 - ☐ Yes ☐ No ☐ Possibly/Uncertain
3. Are there any human remains or archaeological or ethnographic objects in the homes of faculty, staff, or students of your department that were acquired through University of

¹ Native American means of, or relating to, a tribe, people, or culture indigenous to the United States, including Alaska and Hawaii.

California research that may be Native American? These items may be subject to NAGPRA/CalNAGPRA.

- ☐Yes ☐No ☐Possibly/Uncertain
- 4. Are there any medical specimens without a deed of gift or documents of origin? These may be Native American and thus subject to NAGPRA/CalNAGPRA.
 - ☐Yes ☐No ☐Possibly/Uncertain
- 5. Does your department/unit hold any human remains that are unidentified or have not been seen by a human osteologist that may be Native American? Note: Human remains can be misidentified as animal remains at times, and any bones without provenance and/or provenience must be reviewed by an osteologist to determine if they are Native American.
 - ☐Yes ☐No/ ☐Possibly/Uncertain
- 6. If you answered “yes” or “possibly/uncertain” to any of the above questions, please provide available background information, including:
 - The physical location of the collection (e.g., office/lab and building),
 - Faculty, staff or student(s) responsible for managing the location or collection, and
 - Any additional information associated with the identified collection, including, if known, the area or location of origin (country, state, county, site, museum, agency, or controlling entity, if not UC, etc.).
- 7. Are there any human remains in the department/unit that are thought *not* to be Native American?
 - ☐Yes ☐No
- 8. If you answered “yes” to Question #7 above, please identify the provenance and/or provenience of the remains. This information will be used to assist UC in determining whether any Native American human remains may have been misidentified as non-Native American.

Certification

I certify that the information provided above is true to the best of my knowledge.
