[https://us02web.zoom.us/webinar/register/WN\\_grXGagMaQfqxDn6mwafazw#/registration](https://us02web.zoom.us/webinar/register/WN_grXGagMaQfqxDn6mwafazw#/registration)

This interactive free online event is open to anyone around the world and will involve a plenary presentation, an expert panel discussion with audience participation, and viewing of finalist multimedia competition submissions that convey actions and solutions being used around the world in the face of climate change threats, pollution issues, and increasing biodiversity losses. We hope to convene dynamic interplay between experts and audience participants, and to inspire action based on proven practices. Help us spread the word to join the event!
